Congratulations and welcome to the School of Social Ecology! We are excited that you’ve decided to join us as a student this Fall. In order to register for classes for Fall quarter, there are a few things you need to do this summer:

1. **Activate your UCInetID**

   Your UCInetID allows you to sign up for orientation & placement testing and access e-mail. Do this as soon as possible. In order to complete activation, you will need StudentID number, date of birth, and social security number. Activate your UCInetID here: www.students.uci.edu/welcome/

2. **Complete Anteater Zot Start**

   Before you register for Orientation, complete Anteater Zot Start (www.students.uci.edu/welcome/). This website provides you with links and information about placement testing, general education requirements, majors, schedule of classes, registration, and more. It takes about 20 minutes to complete.

3. **Register for Orientation**

   SPOP (Student Parent Orientation Program) is a two-day mandatory orientation program for freshmen and (optionally) parents. It familiarizes you with UCI and college life. You will also get the opportunity to mingle with other incoming and current students. Orientation includes Academic Advising – here you will learn about degree requirements and register for Fall Quarter. **Attending Orientation is mandatory to register for Fall.**

   SPOP sessions fill quickly so enroll early. Register online: www.students.uci.edu/welcome/

   - Check "MyAdmissionsApplication@UCI" online prior to attending orientation.
   - Send official transcripts to UCI Admissions as soon as possible.
   - Bring copies of transcripts and/or AP exam results (unofficial is fine) so we can help you determine what to take.

   **Good luck! We’ll see you at Orientation.**

Best Wishes,
School of Social Ecology
