The Secret to Your Success

Academic Integration + Social Integration

- **Academic Integration**
  - Getting to know your professors & TA’s
  - Getting to know classmates inside the classroom
  - Doing well in classes

- **Social Integration**
  - Getting Involved in clubs & organizations
  - Getting to know professors outside the classroom (office hours, faculty mixers, research)
  - Establishing a support system outside the classroom
Strong Academic Integration + Weak Social Integration = Satisfactory Experience

Weak Academic Integration + Strong Social Integration = Satisfactory Experience

Strong Academic Integration + Strong Social Integration = Most fulfilling, most enriching experience

**STUDENT INVOLVEMENT**

- Ways to be involved
  - Research
  - Clubs & Orgs (SESA, CLS Association – go to Welcome Week)
  - Campus Organizations from Dean of Students

- Benefits:
  - Leads to higher graduation rates
  - Less likely to drop out
  - More fulfilling experience
  - Connection to the campus
  - Leads to increased student development and enrichment

USE WebReg TO ENROLL IN CLASSES

- UCInetID and password required
- Receive immediate feedback
- Automatic log off* will result if:
  - Exceeding the maximum time (3 minutes of idle time and 15 minutes of activity)
  - Minimizing the window
  - hitting the <BACK> button

*An automatic log off may result in a delay in disconnecting WebReg from a record resulting in the message “Student record in use, please try again in a few minutes.” If this happens wait about 3-5 minutes then try again.
Begin with http://www.reg.uci.edu/

A link to WebReg can be found on the Registrar's homepage: on our banner and under Registration and Enrollment.
Enroll in Classes: WebReg

UCI students enroll in classes using WebReg:

- UCI netID and password required. University offices and faculty use email to communicate with students. This is frequently the preferred means to communicate official notices regarding students status and important class information. Students are expected to activate their UCI netID and check their mail frequently. You may set a delivery point different than your UCI email so that you do not miss important announcements. Remember to check your email daily as your mail box can fill quickly during the first two weeks of a quarter.
- Use WebReg to enroll in classes and make schedule changes during the registration period or the adjustment period.
- WebReg is available from 6:00 a.m. to 4:00 a.m. daily, with occasional down times for special circumstances such as final grade update.

WebReg follows this enrollment model:

- Add or drop classes.
- Use the waitlist option.
- Change the grade option or variable units on applicable classes.
- List open sections of selected classes.
- Receive confirmation of successful transactions.
  
  You must successfully add the co-class during the same enrollment session or you will be dropped from the tentatively enrolled section.
- Receive error messages for unsuccessful attempts to add, drop, or change enrollment.
- You will be notified of any academic holds on your record. Some holds prevent enrollment in classes. As soon as possible, follow-up with the office that placed the hold. Classes are dropped if a hold remains on your record at 5:00 p.m. one business day after the fee payment deadline.
- Verify your registration fee status.
- Use the Weekly Planner, † to plan your enrollment sessions.
- Use the Searchable Schedule of Classes (WebSOC) to check availability and search for classes that satisfy breadth categories.

ATTENTION!

We recommend using WebReg with Netscape 7.2 or later or Internet Explorer 5.5 or later.

America Online (AOL) Users: You should minimize your AOL Web browser and use one of the recommended browsers.
UCInetID and password are required to use WebReg
Important notices to the student here.

You may be eligible to have LARC pay for one LARC tutorial - Contact the LARC office.

Select “Enrollment Window” to check enrollment eligibility.

You will need to register for classes on your own for Winter quarter. You can check when your enrollment window opens here.
your enrollment window opens May 21, 2008 at 06:00pm

For your first quarter, your window should be open now. Next quarter, you will need to check for your enrollment window. Students can not enroll until the enrollment window opens. Once the enrollment window opens students have 48 hours to enroll during regular hours. Once the 48 hours has past students may make adjustments to their schedule from 7p.m. to 7a.m. until all windows are open.

Students can check the Registrar’s Office Quarterly Calendar with Deadlines <http://www.reg.uci.edu/registrar/soc/quartercalendar08-09.html> for details and dates.
Select “Enrollment Menu” to enroll in classes.
To add a class: the student selects “Add” and enters the five digit course code (you get this number from WebSOC). A student may select the grade option* or enter variable units and authorization code if applicable. All school and major requirements must be taken for a letter grade.

*All courses default to letter grade unless offered for pass/not pass only.
This lecture has a “linked” required co-class (discussion), the student must enroll in the discussion section before this enrollment session ends or the lecture will be dropped.

Select “List Schedule” to view current classes.
Remember – the student is responsible for his or her schedule and should check it each time a change is made to be sure there are no errors. (Changes in your schedule are automatic and can be viewed on WebReg and StudentAccess immediately, however, your MyEEE schedule can take up to four (4) hours to update.)
When the **maximum idle** time is exceeded the student will be automatically logged out and receive this message.

If the student receives this message any changes to the class schedule may not have been saved. The student should wait the suggested 3-5 minutes then log onto WebReg to confirm the schedule.
You have successfully logged out of your WebReg session.
